

# PHOENIX IRON WORKS

## Demolition

After Phoenix Iron Works was cleared of all required plant and equipment it was left to the demolition experts who commenced work in October 2020 and by Thursday 12<sup>th</sup> November 2020 the last upright wall was demolished. A selection of photographs is included on the following pages:

The pictures below reveal the north wall of the original 1901 building for the 1<sup>st</sup> time in 90 years

Demolition – nearing the end of the 1901 building. Note left the 'old overhead crane in situ amongst the rafters.
